UNIVERSITY OF DELAWARE EARLY LEARNING CENTER
2019 SUMMER CAMP THEMES

Week 1: June 17-21
STEM Camp/Maker Space
Most children love building and designing: it’s in their nature to explore and experiment. This week will provide opportunities for makers, inventors, explorers and artists to let their inventiveness run wild.

Week 2: June 24 – 29
Newark Adventures
Campers will have a chance to explore the rich cultural, educational, and natural surroundings in our community. There are many places to investigate nearby.

Week 3: July 1-5 (no camp July 4)
Water Works I – The Science of Water
Water is essential to all forms of life and we will explore how water supports these different life forms. Ashland Nature Center is an excellent resource in helping children understand the connection between water and life.

Week 4: July 8-12
Water Works II – Make a Splash
Water is the natural habitat for many interesting animals, especially those that live in the sea. We will investigate real-life sea creatures at the Adventure Aquarium.

Week 5: July 15-19
Act It Out! Theater Camp
Calling all actors, designers, singers and dancers. This is the camp for you if you love to be the center of attention (or even if you don’t- there are many jobs in the theater!) Be ready for a special performance at the end of the week!

Week 6: July 22-26
All About Art
Art is often one of the easiest ways for children to express themselves. From painting to collage to sculpture to crafts, art allows children a chance to explore and experiment with different techniques and media.

Week 7: July 29-August 2
Move and Groove
This camp will allow time for freedom and exploration of singing, dancing and exploring different musical genre to showcase musical talents and develop an appreciation for all types of music.

Week 8: August 5-9
Sports Challenge
Campers will compete in challenges including sports, games, and outdoor activities to engage every camper in a fun and invigorating contest to develop teamwork and camaraderie. We will also explore the wonderful world of UD Athletics.

Week 9: August 12-16
Rock Hounds
Geology is the theme- when campers look and discover the rocks and minerals that can be found in their own backyard and our community. The DE History Museum will help guide our exploration.
The UD ELC Summer Camp is dedicated to providing a fun, safe and exciting environment for your child this summer! Each camper can sign up for the weeks that work best for their family’s summer schedule, with a minimum of 4 weeks required. Each week has different themes and related activities to peak camper interest.
